Dear Mr. Weisberg:

It was a pleasure meeting with you on July 21 during my visit to the Winchester/Fredrick area.

I have been interested in the JFK assassination since I read "Whitewash II", after it first came out. Needless to say, it was an honor to meet the person who has done so much work in the field, and who is cited by almost everyone writing on the subject.

Thanks again for your kindness and courtesy, and I hope to have the opportunity of seeing you again someday.

Yours very truly,

William F. Randolph
